

VIU Summer School **Critical Infrastructure Resilience**

Stefano Salata **Izmir Institute of Technology**

Born in Grado (GO) 1983, is PhD in Territorial Government and Urban Design XXVI Cycle at the Department of Architecture and Urban Studies (DAStU), Politecnico di Milano. He is Assistant Professor in ecological planning and the Izmir Institute of Technology. He has been a Research Technologist of the Interuniversity Department of Regional and Urban Studies and Planning, Politecnico di Torino and worked on the project LIFE SAM4CP for the same Department. He worked at the intersection of ecosystem service assessment and urban planning, and his actual research focuses the examination of how increase the sustainability and resilience of urban systems in the face of climate change. His interests concern both the theory and practice of urban and territorial planning.

He is a member of Ecosystem Service Partnership (ESP) and a member of National Research Centre on Land Take - ITALY (CRCS). Co-editor of Italian National Reports on land take (2010, 2012, 2014, 2016, 2017 and 2018) of CRCS and author of many empirical research on scientific international journals.
